

Psych 560

Here's what I want you to do:

1. Take the following tests on Queendom.com
 - a. Big Five Personality Test
 - b. Locus of Control and Attributional Style Test
 - c. The Forgiveness Test
 - d. The Extroversion-Introversion Test
2. Report your scores to each other on your SPSS file.
 - a. Note: If you do not feel comfortable disclosing your score on any of the tests you take, just skip it by simply saying "Pass".

All of these tests are on the Queendom.com site. Look carefully for them. They are all there.

One thing to note: There is a Neuroticism Scale on the Big Five Personality Test. Do not report this score to others.

I selected tests that I regard as benign, but again, feel free not to report. We will simply work around the missing values. It is really not a problem.

Thanks so much.

Have fun!
